Staffing Update

The Board has 160.1 permanent full-time positions (in addition to temporary staff). The Board is at a 4.4% vacancy rate which equates to 7 vacant positions. This is lower than the vacancy rate that was provided in the last Administrative Summary, which was 7.5%. The Board is working to fill those positions.

Budget Update

The Board's budget documents are attached, beginning on page BRD 7A-4 and continuing to page BRD 7A-15. The Board's fund condition on page BRD 7A-4 identifies the Board's fund reserve was at 3.8 months at the end of FY 15-16. With the partial repayment of the outstanding loans and taking into consideration future anticipated costs, the Board's fund reserve will be below its mandated level in FY 17-18. Board staff will be closely monitoring the Board's budget to determine whether future changes are needed. The second fund condition on page BRD 7A-5 does not include the repayment of the general fund loans. As indicated by both fund conditions, it would not be prudent at this time to consider any reduction in licensing fees as previously recommended by the Bureau of State Audits because the Board anticipates being within its mandatory level at the end of FY 15-16. In addition, the Board has future costs that could impact the Board's budget should they be approved.

The Board's overall actual expenditures for FY 15-16 through March 31, 2016 can be found on page BRD 7A-6. Pages BRD 7A-7 to 7A-11 show the budget report, specifically for licensing, enforcement, the HQIU, and the AG expenditures. Page BRD 7A-15 provides the Board Members' expenditure report as of April 14, 2015.

BreEZe Update

Board staff continues to submit requests for changes/fixes to DCA for the BreEZe system. Board staff is working on streamlining the physician and surgeon renewal process via the online experience. Once this process is complete, staff is going to move to the physician and surgeon online application. These improvements will help both the licensees and the applicants when they use the Board's online functions.

Controlled Substance Utilization Review and Evaluation System (CURES) Update

The Board continues to provide information to physicians via emails and the Newsletter regarding the need to register by July 1, 2016. The Board has received numerous calls from physicians who are trying to register for CURES and have been unable to do so. Board staff is assisting the physicians. The reoccurring issue seems to be that the date of birth or the social security number they are using to register does not match the one on file with the Board. The Board updated its website page regarding CURES and provided links to helpful documents such as "CURES 2.0 Tips and Tricks," "CURES 2.0 Registration User Guide," and "CURES 2.0 Publications and Training Videos." There is also a frequently asked questions document.

Prescribing Psychotropic Medications to Foster Children

As stated at the last Board meeting, in late November, the Board contracted with a pediatric psychiatrist to review the data that was received by the Department of Health Care Services (DHCS) and the Department of Social Services (DSS). This data included a listing of all physicians who had prescribed three or more psychotropic medications for 90 days or more, a list of the medications prescribed, the start and stop date for each medication, and the child's date of birth. The child's information was de-identified. The pediatric psychiatrist reviewed the data to identify physicians who may be inappropriately prescribing psychotropic medications or to determine additional data was needed to make this determination.

On January 21, 2016, the pediatric psychiatrist provided her report to the Board. Her report indicated that more information is needed in order to identify any physician who may be inappropriately prescribing. The additional information includes diagnosis associated with the medication, dosage of medication prescribed, schedule of dosage, and weight of the child/adolescent.

On February 16, 2016, Board staff met with staff from DHCS and DSS to explain the additional information that was needed. DHCS and DSS were going to determine if they could obtain the additional data elements being requested. On March 22, 2016, DHCS notified the Board that they could not obtain the specific data requested by the Board, however, DSS stated that they could obtain the weight of the child. DHCS stated they could provide alternative data that could be used for the pediatric psychiatrist's review. The Board is currently waiting for this additional data from DHCS and DSS.
