

Business & Professions Code 2028.5

2028.5. (a) The board may establish a pilot program to expand the practice of telemedicine in this state.

(b) To implement this pilot program, the board may convene a working group of interested parties from the public and private sectors, including, but not limited to, state health-related agencies, health care providers, health plan administrators, information technology groups, and groups representing health care consumers.

(c) The purpose of the pilot program shall be to develop methods, using a telemedicine model, to deliver throughout the state health care to persons with chronic diseases as well as information on the best practices for chronic disease management services and techniques and other health care information as deemed appropriate.

(d) The board shall make a report with its recommendations regarding its findings to the Legislature within one calendar year of the commencement date of the pilot program. The report shall include an evaluation of the improvement and affordability of health care services and the reduction in the number of complications achieved by the pilot program.
