

2015-2016 ANNUAL REPORT Medical Board of California

2005 Evergreen Street, Suite 1200, Sacramento, CA 95815 • (916) 263-2389 • www.mbc.ca.gov

Executive Summary

The Medical Board of California (Board) continued to focus on the protection of health care consumers through the launch of a successful outreach campaign beginning in late August 2015. The campaign is entitled “Check Up On Your Doctor’s License,” which is designed to encourage all California patients to check up on their doctor’s license via [the Board’s website](#). The Board developed brochures and video tutorials in English and Spanish that are posted on the Board’s website and available on YouTube. In addition, the Board updated its website to provide patients with information on how to use the license search feature and what the information means, including disciplinary actions taken against a doctor. The Board has successfully worked with numerous counties and cities in California, as well as the California State Retirees, CalSTRS, and CalPERS in getting its campaign information in publications, websites, tweets, and Facebook. Further, the Board worked with the State Controller’s Office to include information about the Board’s campaign on payroll warrants for all state employees and vendors. At the close of the fiscal year, this outreach campaign had the potential of reaching 17 million California health care consumers. The Board saw an increase in its web hits following the campaign release and placement in Google, Yahoo, and Bing web search analytics. The Board will continue with its outreach campaign in the next fiscal year and hopes to reach more Californians with information about the Board and what it does to protect California health care consumers.

The Board also worked with the Attorney General’s Office and the Department of Consumer Affairs’ Health Quality Investigation Unit to identify and implement several improvements to expedite and increase the issuance of Interim Suspension Orders (ISO). The Board saw a significant increase in ISOs issued from fiscal year 2014-2015 to 2015-2016 due to these improvements. The number of ISOs issued increased from 14 to 37, which is a 164% increase. In addition, the average time to obtain an ISO was reduced from 588 days in fiscal year 2014-2015 to 438 days in fiscal year 2015-2016, a 150 day reduction. Implementation of additional improvements is planned and will continue to enhance the ISO process.

Executive Summary (continued on page ii)

Current Physician and Surgeon Licenses by County

Data is for physicians with a renewed and current license excluding those in an inactive, retired, or disabled license status. The breakdown of those license statuses is: California – 2,212; Out of State – 4,380; Total – 6,592.

Alameda	5,183	Inyo	46	Monterey	906	San Luis Obispo	809	Trinity	9
Alpine	6	Kern	1,141	Napa	501	San Mateo	2,979	Tulare	526

*Due to the location listed in the address of record, the county cannot be identified.

The Mission of the Medical Board of California

The mission of the Medical Board of California is to protect health care consumers through the proper licensing and regulation of physicians and surgeons and certain allied health care professions and through the vigorous, objective enforcement of the Medical Practice Act, and to promote access to quality medical care through the Board’s licensing and regulatory functions.

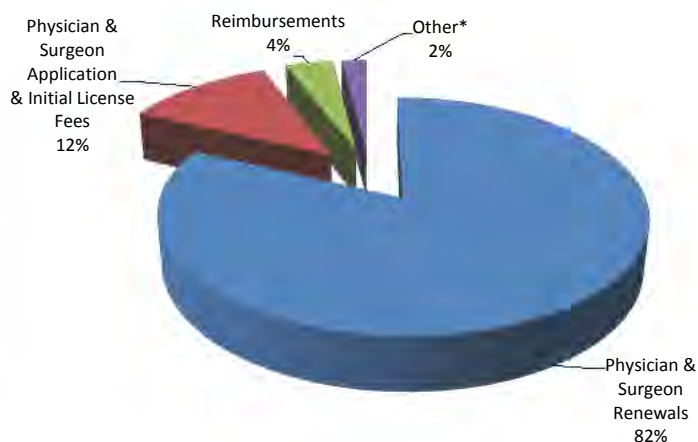

Executive Summary (continued from page i)

On July 1, 2015, regulations implementing the **Uniform Standards for Substance-Abusing Licensees** became effective. These regulations implemented **Senate Bill 1441** (Chapter 548, Ridley-Thomas). The regulations state that any physicians disciplined for unprofessional conduct involving illegal drugs, the abuse of drugs and/or alcohol, or the use of another prohibited substance will be presumed to be a substance-abusing licensee. The purpose of the Uniform Standards is to ensure that all substance-abusing licensees are held to the same standards. These Uniform Standards include terms and conditions for a clinical diagnostic evaluation, random biological fluid testing, work site monitor, group meetings, and notification to the Board of the licensee’s employer or supervisor. These conditions would be included in a licensee’s probationary order. The Uniform Standards also include actions the Board must take if a licensee violates these conditions of probation. These Uniform Standards are available on the Board’s website. All these accomplishments further allow the Board to meet and enhance its mission of consumer protection.

Medical Board of California 2015–2016 Fiscal Year

Revenues and Reimbursements

Physician and Surgeon Renewals	\$48,478,000	82%
Physician and Surgeon Application and Initial License Fees	\$ 7,148,000	12%

²Budget amounts were adjusted for Attorney General services, Office of Administrative Hearings, and court reporter services.

Licensing Summary

The Medical Board of California’s (Board) Licensing Program continues to achieve its mission of protecting the health care of consumers through the proper licensing of physicians and surgeons and certain affiliated healing arts professionals. The Licensing Program also issues fictitious name permits, licenses non-nurse midwives, research psychoanalysts, and polysomnographic trainees, technicians and technologists. In addition, the Licensing Program approves accreditation agencies that accredit outpatient surgical settings in which general anesthesia is being used.

Licensing Summary (continued on page iii)

Licensing Summary (continued from page ii)

The Licensing Program issued 6,317 new physician's and surgeon's licenses. This was an increase of 435 more new licenses than the previous fiscal year. The Licensing Program recognized 29 international medical schools pursuant to California Code of Regulations, Title 16, Division 13, Section 1314.1(a)(1). The Licensing program was able to perform all initial reviews of physician's and surgeon's applications within the 60 working days' regulatory time frame. Staff continues to identify opportunities to streamline and improve the application process and improve the Licensing Program's outreach efforts.

Pursuant to **Assembly Bill 684** (Alejo, Chapter 405), effective January 1, 2016, the oversight of the Registered Dispensing Program, which includes spectacle and contact lens dispensers, registered dispensing optician businesses, and out-of-state contact lens sellers, was transferred to the State Board of Optometry.

In addition, **Senate Bill 396** (Hill, Chapter 287) made consumer protection improvements to the laws pertaining to outpatient surgery settings by requiring the outpatient settings to have peer review evaluations for physicians and surgeons working in these settings. The accreditation agencies may also now conduct unannounced inspections of accredited outpatient settings.

Senate Bill 408 (Morrell, Chapter 280) provided the ability for a licensed midwife to have a midwife assistant if the individual meets the minimum required training requirements. The Board held an interested parties meeting to draft regulations for the implementation of this bill and the regulations are proceeding through the regulatory process.

¹ Does not include the 8,775 listed under Consumer Inquiries on page v.

² Does not include the 14,247 listed under Consumer Inquiries on page v.

³ SB396, effective 1/1/16, allowed Medicare-certified ambulatory surgical centers access to 805 reports received by the Medical Board.

⁴ Statistics from Medical Board's 'BreEZe Online License Verification' page.

⁵ Includes 551 MDs, 3 Registered Dispensing Opticians Program, 0 Licensed Midwives and 3 Denials by Licensing Program.

⁶ Includes 586 MDs, 1 Licensed Midwife and 7 Denials by Licensing Program.

⁷ Includes 96 805 Reports and 4 805.01 Reports against MDs.

⁸ Includes 127 Reports against MDs and 5 805.01 Reports Against MDs.

2015 Licensed Midwife Annual Report Summary¹

	2014	2015
Clients served as primary caregiver at the onset of care	5,386	5,528
Clients served with collaborative care available through or given by a licensed physician and surgeon	2,763	2,562
Clients served under the supervision of a licensed physician and surgeon	161	112
Planned out-of-hospital births at the onset of labor	3,397	3,616
Planned out-of-hospital births completed in an out-of-hospital setting:	2,833	3,082
Twin Births	1	0
Multiple Births (other than Twin Births)	1	0
Breech Births	12	12
VBAC (vaginal births after the performance of a Cesarean section)	150	172
Complications - Resulting in the mortality of the mother prior to transfer	0	0
Complications - Resulting in the mortality of the mother after transfer	0	1
Complications - Resulting in the mortality of the infant prior to transfer	2	0
Complications - Resulting in the mortality of the infant after transfer	2	2
Antepartum - Primary care transferred to another health care practitioner (elective)	401	406
Antepartum - Urgent or emergency transport of expectant mother	113	114
Intrapartum - Elective hospital transfer	492	433
Intrapartum - Urgent or emergency transfer of an infant or mother	69	45
Postpartum - Elective hospital transfer of mother	57	65
Postpartum - Elective hospital transfer of infant	31	25
Postpartum - Urgent or emergency transfer of a mother	37	56
Postpartum - Urgent or emergency transfer of an infant	39	54

¹ Conclusions should not be drawn from this summary as data does not specify whether the death is fetal, intrapartum or neonatal; whether the affected perinate had congenital anomalies incompatible with life; or whether the perinate was born in or out of a hospital. Births are attended by the licensed midwife as the primary caregiver.

Enforcement Summary

In fiscal year 2015-2016 the Medical Board of California's (Board) Enforcement Program received 8,679 complaints against physicians and surgeons and unlicensed individuals alleged to be practicing medicine without a license. This was an increase of 412 complaints from the prior fiscal year. Since fiscal year 2012-2013 the Board has seen a significant increase in complaints received. These complaints include allegations including, but not limited to, excessive prescribing, gross negligence/incompetence, licensee self-abuse of drugs or alcohol, convictions of a crime, and general unprofessional conduct.

Due to the passage of **Senate Bill 304** (Lieu, Chapter 515, Statutes of 2013), which transferred the Board's sworn investigative staff to the Department of Consumer Affairs, Division of Investigation's Health Quality Investigation Unit (HQIU) on July 1, 2014, the Board was unable to issue citations, with the exception of unlicensed activity citations. Therefore, the Board adopted regulations, effective August 31, 2015, which authorized the Executive Director or his/her designee to issue citations and fines and to perform the duties to process the citations. Therefore, the Board issued 55 citations in fiscal year 2015-2016.

The Board collaborated with the Department of Social Services and the Department of Health Care Services to

obtain data that would assist the Board in identifying physicians who may be inappropriately prescribing psychotropic medications to foster children. The issue of overprescribing psychotropic medications is a top priority for the Board and it will continue to work with these other state agencies to receive information to assist in ensuring

¹ Health and Safety complaints, e.g., excessive prescribing, sale of dangerous drugs, etc.

² Non-jurisdictional complaints are not under the authority of the Board and are referred to other agencies such as the Department of Health Care Services, Department of Managed Health Care, etc.

³ Gross Negligence/Incompetence complaints are related to the quality of care provided by licensees.

⁴ Personal Conduct complaints, e.g., licensee self-abuse of drugs/alcohol, conviction of a crime, etc.

⁵ Unprofessional Conduct complaints include sexual misconduct with patients, discipline by another state, failure to release medical records, etc.

⁶ Reference is to B&P Code §800 and §2240(a) and includes complaints initiated based upon reports submitted to the Board by hospitals, insurance companies and others, as required by law, regarding instances of health facility discipline, malpractice judgments/settlements, or other reportable activities.

⁷ Licensee/Professional Group includes the following complaint sources: other Licensee, Society/Trade Organization, and Industry.

⁸ Governmental Agency includes the following complaint sources: Internal, Law Enforcement Agency, other California State Agency, other State, other Unit of Consumer Affairs, and Federal or other Governmental Agency.

Enforcement Summary (continued from page v)

consumer protection.

The passage of two legislative bills increased the Board’s authority to investigate allegations of misconduct. **ABX2 15** (Eggman, Chapter 1) established the End of Life Option Act (Act), which became effective June 9, 2016. This Act gives a mentally competent adult California resident who has a terminal disease the legal right to ask for and receive a prescription from his or her physician to hasten death, as long as required criteria are met. This bill contains very specific processes that must be followed by a physician, including the completion of certain forms. The Board developed a web page to provide information to the public and physicians regarding this bill. In addition, **SB 277** (Pan and Allen, Chapter 35) effective January 1, 2016, deleted the personal belief exemption from the existing immunization requirements. The Board will investigate any complaints in which a physician may not be following the standard of care in these two new areas.

The Expert Reviewer Program held an expert reviewer training on March 19, 2016 in San Diego, California. The training focused on the complete enforcement process, legal considerations, effective report writing, and testifying during an administrative hearing. Additionally, the Board assisted in providing training to all administrative law

judges (ALJ) as required in **Government Code section 11371**, which requires that all ALJs receive medical training as recommended by the Board. During fiscal year 2015-2016, three training sessions were held in the topics of anatomy and systems of the body, prescribing practices, and medical record keeping.

			Unprofessional Conduct	5	5
			Total	95	85

- ¹ Accusations withdrawn for the following reasons: physician passed a competency exam; physician met stipulated terms and conditions; physician was issued a citation/fine instead; physician died, etc.
- ² Effective 7/1/14, the Board's sworn staff within the Enforcement Program transferred to the Division of Investigation's Health Quality Investigation Unit. The authority to issue a citation by the Enforcement Program was lost due to this transition. The statistic reflects citations issued by the Board's Chief of Licensing only.
- ³ Penalty Relief includes Petitions for Modification of Penalty and Petitions for Termination of Probation.
- ⁴ Pursuant to B&P Code §2220.05 (c), ISOs and TROs were granted in the following priority categories: 1 – gross negligence/incompetence resulting in death or serious bodily injury, 0 – drug or alcohol abuse involving death or serious bodily injury, 2 – excessive prescribing, 0 – excessive recommending of medical cannabis, 4 – sexual misconduct with a patient, and 1 – practicing under the influence of drugs/alcohol.
- ⁵ Includes 0 – Automatic Suspension Orders per B&P Code §2236, 10 – license restrictions per Penal Code §23, 6 – license restrictions pursuant to court order, 18 – out-of-state suspension orders per B&P Code §2310, 0 – stipulated agreement to suspend or restrict the practice of medicine, and 14 – suspension/cease practice orders issued for violation of probation condition.

	FY 15-16	
Enforcement Field Operations Caseload		
Health Quality Investigation Unit Caseload¹	Statewide	Per Investigator
Active Investigations	1,552	20 ²
AG Cases Assigned ³	521	9 ²
Probation Unit Caseload⁴	Statewide	Per Inspector
Monitoring Cases ⁵	500	33

- ¹ Includes physicians and surgeons, licensed midwives, research psychoanalysts, dispensing opticians program, outpatient surgery settings, polysomnographic program, doctors of podiatric medicine, physician assistants, psychologists, and osteopathic physicians and surgeons.
- ² Average is determined by using the total number of authorized positions, including vacant positions. Taking into account the authorized positions that are not vacant, the average active investigations per investigator is 32; the average AG assigned cases per investigator is 11.
- ³ These cases are at various stages of AG processing and may require supplemental investigative work, such as subpoena services, interviewing new victims or witnesses, testifying at hearings, etc.
- ⁴ Includes physicians and surgeons and licensed midwives.
- ⁵ 105 additional monitoring cases were inactive because the probationer was out of state as of 6/30/16.
