

Hi this is Dr. Jorge Garcia reminding you to always use licensed doctors and other health care professionals. As a licensed doctor, I want my patients to have the information and health care they need and I take pride in earning my patients' trust and confidence

To assure that your doctor is licensed or if you have concerns about the care you have received call the Medical Board of California at (916) 263-2382

Remember – be informed, be healthy.
